The Pramukh Swami Science & H D Patel Arts College, Kadi is always a step ahead in identifying the rising demands of research, academia, civil and industry and has always tried to bring it to the students via seminars, workshops and lecture series.

The seminars, workshops, invited and popular talks organized by various departments of the college are hand in hand with the present education system.

During the span of 2014- 2019 a healthy number of seminars, workshops and talks were organized in the college, regarding the diverse aspects of academics as well as research. The main agenda for organizing such programs was to create awareness regarding recent developments, to create awareness of education, its implications in various inter-disciplinary fields, to understand industrial demands that lead to impactful innovation.

Intellectual Property Rights (IPR) plays a key role in gaining an advantageous position in the competitive technological game for economic growth. Writers, artists, scientists, and policy makers need more information, orientation, and facilities for protecting the creations of their intellectual powers and skill. With this aim, The Pramukh Swami Science & H D Patel Arts College, Kadi organized several seminars in almost every academic year.

The list of seminars and workshops (Total: 68) conducted during the period 2014-2019 are given below:
